Diamond  
Series

Flat LCD Touch Screen  
Terminal or PC

## ***IT-1000 INTEGRATED TOUCH SCREEN TERMINAL OR PC***

The exciting new IT-1000 PC is ideal for POS terminal applications. The terminal features an all-in-one design that integrates an energy efficient 13.3" active TFT LCD flat panel display and a technologically advanced CPU. Because the IT-1000 uses off-the-shelf desktop technology, resellers can service, expand or support it with parts and supplies from local resources.

The large bright display is adjustable for clear viewing in high or low light environments and the touch interface increases accuracy, reduces training time, and improves operator efficiency. With its expansion capabilities, connection with POS peripherals can be maximized. Cables and connectors are easy to access, yet safe and secure from interference.

## SPECIFICATIONS

### Motherboard

<b>Form Factor:</b>	u-ATX Form
<b>CPU Type:</b>	Celeron or Pentium III CPU
<b>System Clock:</b>	66/100/133/266/400 MHz
<b>Memory:</b>	168-PIN DIMM (Support PC-133) or DDR RAM
<b>Video:</b>	Embedded 2D/3D AGP VGA
<b>Audio:</b>	Embedded PCI Audio Accelerator
<b>Ethernet:</b>	10/100 Base-T Ethernet Controller

### Standard Devices

1.44 MB FDD  
3.5" IDE HDD (Support DMA-66)  
MSR Track 1 & 2  
Windows 98  
Resistive Touch  
Celeron 1.2G or Higher Processor

### Standard I/O Connectors
